What we have achieved

On the 2nd of March 2022, our team had a face-to-face meeting in Athens, Greece. The meeting began with Instituto Foral de la Juventud (IFJ) thanking all the project partners for the work carried out and shared through Google Drive. Thanks to the great effort of all partners, the challenges, the training pills and the NNC Experience Guide are done and successfully translated.

Moreover, our team is happy to announce that we have launched our NNC platform.

The NNC online platform is the environment for learning and interacting with the participants. It serves as a launching point for the challenges and a channel for the publication of results/contributions from the participants. Do not miss the fun of learning with us, visit www.nnchannel.eu

LAUNCH OF THE NNC PLATFORM
